

Empowering The Girl Scouts Movement With Rallyhood

Privacy and Security on Rallyhood

November 2023

Committed to Protecting Our Users!

At Rallyhood, we care deeply about our users and their privacy. In our ongoing commitment to the highest level of privacy, safety and security, we continue to upgrade and maintain our architecture.

Unlike nearly every other social platform, we don't sell ads or our user data, with anyone, ever.

Technical maintenance and upgrades are a continual effort at Rallyhood, and throughout these processes, we always put our users privacy, safety and security first.

PRIVACY & SECURITY

Committed to protecting the privacy of our users!

- All of the data within the Rallyhood database is encrypted using the Advanced Encryption Standard (AES-256), the highest level of security Amazon provides.
- All production servers, databases, and data reside in a virtual private network (VPN).
- Rallyhood uses Imperva and Amazon GuardDuty to provide 24x7 security monitoring and data protection.
- All connections within the application, between its components and stored credentials, are protected via encryption and firewalls.
- Rallyhood chose Stripe as our payment processing platform because of its best-in-class (PCI - Level 1) security tools and certifications. Stripe uses AES-256 to encrypt all confidential data

PRIVACY & SECURITY *(continued)*

Committed to protecting the privacy of our users!

- Users are required to login using an email/password combination to access Rallyhood.
- Rallyhood Hub and Rally visibility and membership is customizable via inheritable permissions:
 - Hubs and Rallies can be Public (open to Rallyhood users to join) or Private (members must be invited or approved to join) or Unlisted (members must be invited or approved and the Hub or Rally does not appear in the Search index of Rallyhood).
- We do not sell ads, users' contact information, or users data—anonymous or otherwise—with anyone.
- We do not have distracting Ads or Algorithms that track or determine the content users see.

RALLYHOOD
