Notes:

1. Due to the large quantity of nuts processed in our facility, we advise consumers with any peanut or tree nut allergies to avoid all products we produce.
2. Milk is not an ingredient, but may be a cross contaminate in the manufacture of one of the components.
3. Eggs are not an ingredient, but may be a cross contaminate in the manufacture of one of the components.
4. The Kosher application is pending on Seasoned Almonds.

Additional Notes:

Soy oil may be used for roasting. This is not listed as an allergen because refined oils do not contain the proteins that cause allergic reaction.

Yellow 5, Yellow 6, and Sulfites have been included even though they are not considered true allergens.

The OU symbol represents regular Kosher items. The OU-D and OK-D symbols represent Kosher Dairy items.
