

Girl Scouts of Virginia Skyline Council Charter Buses

Many trips for Girl Scouts may require the use of a chartered bus service for transportation. Under a charter bus agreement, the bus company supplies the bus and driver. To protect girls and ensure bus companies meet the *Safety-Wise* requirements, the council has set up a system to approve bus companies.

Bus companies may be added to the approved list at any time. If you know of a bus company that would be interested in being added to the list, contact the Director of Outdoor Program at the central office.

Call your service unit manager or field director for the most current copy of approved charter bus companies or see the council web page; www.gsvsc.org.
