Featured Story — May 2020

The Co-Leaders of Brownie Troop 964 wanted to do something special for our Third Grade Brownies from Broadus Wood Elementary School in Earlysville. They have missed out on attending their meetings, camping trips, service projects, and activities due to the Covid-19 epidemic. We heard of other leaders giving out packages to the girls to spread cheer and thought it was a great idea. The packages would give them activities they could do together via Zoom and separately to share at a later date. The girls received a tshirt, funky socks, tie-dye, water beads, paint, a picture frame, and embroidery floss to make a friendship bracelet. Also, each girl wrote a letter to another girl in our troop to be included in her package. The letters included words of encouragement and ideas on how to spend their cookie proceeds. Today, we had a Zoom meeting where we tied out shirts with rubber bands and will all be dying our shirts later this week. We are all looking forward to being together again and wearing our shirts and socks that we made.
